

Text Anywhere

Blackberry Playbook Compatibility

Your Blackberry Playbook is compatible with the Text Anywhere system.

Ensure the OS version is 2.1.0.1753 or newer.

1. Connect to the TextAny#### network using the normal WiFi interface.
2. On the same interface, tap the drop-down box next to “select a network” and choose “Saved networks”
3. Tap the “TextAny#### network”.
4. Scroll to “Automatically obtain IP address and uncheck this box”. Enter the following settings (blank if not specified):
IP Address: 10.10.10.3
Subnet mask 255.0.0.0
Primary DNS: 10.10.10.10
Default Gateway: 10.10.10.10
5. Tap “Save and Connect”
6. Browse to <http://10.10.10.10> to use Text Anywhere. We recommend saving this address as a bookmark for easy access.
